George Telegraph mobile technology course

The George Telegraph Institute of Mobile Technology, a unit of The George Telegraph Group, is offering a course in mobile technology to train the students for the mobile phone industry and is also providing them with guaranteed employment on completing the course. To provide employment opportunities to the students, the institute has tied up with Aforeserve.com.Ltd, the principal company that manages and runs a leading chain of mobile stores and service centers under the brand name of Re-Store to provide employment to all its students. The minimum starting salary for the students will be Rs 6000 per month.
